CENSUS AND DEMOGRAPHIC INFORMATION

**Forsyth County
Public Library**

www.forsythpl.org

WORLDWIDE

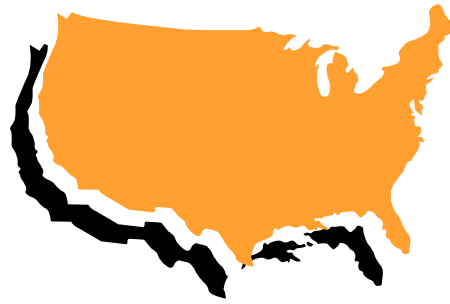

<http://www.prb.org>

The Population Reference Bureau provides “information about United States and world population, health and the environment. Analysis of complex demographic data and research is done to provide the most objective and accurate, and up-to-date population information in a format that is easily understood.”

Browse by topic or region/country.

<http://www.refdesk.com/factpop.html>

Refdesk is a “fact checker for the Internet.” It “is a free and family-friendly website that indexes and reviews quality, credible and current web-based resources.” Links are checked every six months. Above link is for population and demographic sources.

UNITED STATES

<http://www.census.gov>

The United States Census Bureau offers a variety of demographic information for states, cities, ZIP codes and the country as a whole, *Statistical Abstracts of the United States* from 1878 forward, some historical census information and some international statistics.

<http://fisher.lib.virginia.edu/collections/stats/ccdb/>

County and City Data Books offer extensive demographic data for U.S. cities and counties. Users may select variables to produce customized reports.

<http://www.census.gov/cgi-bin/briefroom/BriefRm>

The Economic Indicators Briefing Room publishes current Federal economic statistics including United States International Trade in goods and services, manufacturing and trade inventories and sales, homeownership, housing starts, monthly retails, and monthly wholesale trade.

GEORGIA

<http://www.georgiastats.uga.edu/guide.html>

The Georgia Statistics System web site will customize the statistics, maps and graphs that you want from the latest data sources. The site's purpose is to facilitate economic development by improving the information base available to decision makers in local government, schools and businesses.

<http://opb.georgia.gov>

The State of Georgia Office of Planning and Budget's Census Data Program offers detailed data from the 2000 census for Georgia with some data for comparison from previous censuses. Data is available for counties and MSAs.
